### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The IDS filed 16 Jan. 2002 has been reviewed. While JP09172021 does disclose bumps through an insulating layer 13 in Fig. 5, and described in the abstract, there is not a teaching or a suggestion of the limitations "and exposing the end surfaces of the bumps at the other surface through hot pressing", for example. The prior art of record cited in the List of References are relevant to applicant's disclosure. Funada, et al. (US 6,311,888B1) discloses pressing bumps through a thermoplastic sheet(Fig. 13A and col. 11, lines 5-10), however Funada et al. fails to disclose all of the limitations of the allowed claims, for example the limitation "and exposing the end surfaces of the bumps at the other surface through hot pressing". While Yamamoto, et al. (US 5,865,934) does teach pressing bumps through a thermoplastic sheet(col. 6, lines 33-40), the limitations "positioning one or a plurality of the semiconductor devices on a thermoplastic resin sheet", and "inserting the semiconductor device into the base material with the bump of the semiconductor device put in an exposed state...", among others for example, are not taught.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Caridad M. Everhart whose telephone number is 571-
